REPORT NO. [REDACTED]

CD NO. [REDACTED]

25X1A

COUNTRY East Germany
 SUBJECT Liquid Fuel Plant Constructed by the Mineraloel-Baugesellschaft up to 1945

DATE DISTR. 1 October 1953

NO. OF PAGES 2

NO. OF ENCLS.
(LISTED BELOW)

SUPPLEMENT TO

REPORT NO. 121-15-1

25X1A

25X1X

1. The following are the liquid fuel plants constructed by the Mineraloel-Baugesellschaft (called Ibabag Inspektion prior to 1 January 1943) up to 1945:

Plant	Designation	Location	Capacity in 1,000 tons per year
<u>High Pressure Plants (Hoehendruckwerke)</u>			
Lochden	I	Boehlen/Leipzig	220
Lauditzburg	II	Pottendorf/Lauditzburg	220
Zeitz	III	Torgau-Lititz	280
Solingen	IV	Breitenbach-Horst	315
Wolheim (sic)	V	Wur area	100
Geelitz	VI	Geelitz/Stein	600
Reichenberg	VII	Reichenberg/Kolin	220
Froes	VIII	Maltheuern/reer (Czechoslovakia)	300
Schleiz-Oelschnitz	IX	Oelschnitz/Hoydebrack U.S.	125
Gedleben	X	Gedleben/Lausau	100

Fischer-Tropsch Installations

Schwarzeide	C	Julian C.-L. (Ober-Lansitz)	100
Schaffgotsch	OS	Reichenbach C.-L. (Ober-Schlesien)	100
Kruss-Treibstoff	Sp	Janne-Liebel	10
Leesener Steinkohle	LS	Kamen (Ruhr)	100
Kerosin-Denzin	KD	Ruh	1,100
Type of Installation Unidentified			
Tobau	Un	Grossenzersdorf/Vienna	1,000
Kherson	USSR Ch	Southern Russia	

2. Following the destruction of most of the German hydrogenation plants on 12 May 1944, work was speeded up on the construction of subterranean liquid fuel plants; the following are the plants in question: 1/

Plant	Plant Designator	Location
Luftdruck	I	Torchausen/U.S.
Schwalbe I	Schw I	Ludwigsfelde (near Berlin)
Schwalbe II	Schw II	?
Schwalbe III	Schw III	Hirschfelde/Germany

CLASSIFICATION SECRET

- 2 -

3. In 1944 and 1945 the Mineraloel-Baugesellschaft, in conjunction with the Arbeitsstab Oeilenborg, worked with great haste on about thirty or forty small distillation installations bearing the code name "Ofen" and on approximately thirty to forty installations for obtaining fuel from oil shale; the latter were constructed under the code name "Hueste". 1/
4. In addition to the liquid fuel plants listed above, in the construction of which the Mineraloel-Baugesellschaft participated, the following additional installations were expanded or constructed in Germany up to the end of the war:

<u>Plant</u>	<u>Capacity in 1,000 Tons per Year 2/</u>
Leuna-Werk, Merseburg	600
Scholven	216
Luetzkendorf (High Pressure)	50
Oppau (Opava, Czechoslovakia)	50
Heydebreck	50
Auschwitz	164
Koelsbierbaum (predominantly Flieger-Bi, Iso-Oktan, Alkylate)	106
Huels	12
Schkopau	9
Ruhr-Chemie (Fischer-Tropsch)	72
Viktor Rauxel (Fischer-Tropsch)	40
Rein-Preussen (Fischer-Tropsch)	70
Luetzkendorf (Fischer-Tropsch)	80

25X1A 1/ [REDACTED] Comment. [REDACTED] documents 25X1X
On the subject cannot be obtained.

25X1X 2/ [REDACTED] Comment. The capacity figures listed are general overall figures for liquid fuel; no attempt is made to break them down into AT gasoline, D&D gasoline, butane, octane, or lubricant-Diesel oils.
Planned or current plant expansion is not taken into consideration.

25X1A 3/ [REDACTED] Comment: Now called Zaluzi (Maltheuern) near Most (Bruex),
the location of the Stalin Works.
